

mouse mats | 260 x 220mm - Full colour

- Safe area
- Cut line
- Bleed

10mm bleed required. 10mm safe area. Trimming can vary up to 5mm.
The gas transfer process used in Dye Sublimation (mouse mats, stubby holders etc) WILL cause certain colours to change.
A proof may be requested when you place your order, if you are concerned about colour variation and final cut size. This will however, add to the total time of production.
